Edit Your Quotebook

Objective:

This assignment is designed to solidify the following skills that you have learned in the previous videos:

1. Creating and checking out branches
2. Switching between branches to view different

To Do:

1. Create a new branch in your "MyQuoteBook" project (the one we started in the previous assignment) to add quotes on motivation
2. On this new branch create a separate file for your motivational quotes
3. Add some content to the motivational quotes file and then make a commit
4. Checkout the master branch
